

## A002 : SELSTAT

high solids antistatic metallised polish

### Description of product

High performance dissipative floor polish. Retains performance even at humidities as low as 11% Independently tested to IEC 61340 - 4 - 1 and BS 7506. Makes charge dissipate off a standard vinyl floor. Improves the conductivity of conductive flooring. Applies, hardens and protects like a normal floor polish. Non-slip

### Product Uses

For all linoleum, P.V.C., rubber, sealed cork, sealed wood, terrazzo and thermoplastic floors. N.B. Not suitable for unsealed wood, unsealed cork or laminate flooring.

### Directions

Selstat must be applied to a clean grease free floor. Strip old polish with Selate then rinse thoroughly with clean water, allow floor to dry. Apply a thin even film of Selstat using a clean lint free mop or applicator. Apply a second coat when the first is dry (approximately 30 minutes). COVERAGE: 60 square metres per litre. Full independent test reports are available on our website. N.B. Buffing is not recommended as this will reduce the static dissipative property of the polsh.

### iNsight Supported

iNsight is Selden's interactive product selection and training system. Enables the user to create full COSHH training kits, wallcharts, task cards and more. visit <http://www.selden.co.uk/insight>

### iNsight recommended product uses

Flooring - applying floor polish (mop application)

### Product Hazards and PPE Requirements

Contains : Benzisothiazolinone

#### Risk Phrases

Contains Benzisothiazolinone May produce an allergic reaction.

#### Safety Phrases

### Technical Data

Composition	A blend of acrylic copolymers, resins and copolymer wax incorporating a antistat agent, wetting agents and film forming aids in a stable water based emulsion form incorporating metal cross linking additives.
Appearance	Opaque liquid
Colour	white
Viscosity	<10 cps
Density	1.028
pH	8.0 - 8.2
Activity	18%
Fragrance	Characteristic, slightly sweet
Stability	2 years in unopened containers
Storage	Protect from freezing

### Environmental Profile

#### Biodegradability

All surfactants contained in Selden Products meet the requirements of the EU Detergent Directive 2005 – 2004/648/EC. This requires all surfactants to break down both quickly and completely into harmless material such as CO2 and water.

#### Selden Environmental Charter

- We set ourselves industryleading standards.
  - Selden minimises wastage, packaging and transportation.
  - If it can be recycled, it will be recycled.
  - Our chemicals policy exceeds regulatory requirements.
  - We don't expect other people to clean up after us.
  - Conserving energy, preserving resources.
  - By being innovative, we strive to do better.
  - We like to work in partnership with our clients.
- Visit our website for more information.

#### External Accreditations

9001 - Quality System  
14001 - Environmental System  
18001 - Health & Safety System  
IPPC Certified Manufacturer

#### Sustainability

Product conforms with the DEFRA endorsed Sustainable Cleaning guidance

### COSHH+ Supported

Selden's bespoke COSHH awareness and product training tool. Users specify the products in use and instantly generate a full training pack to enable quick and effective staff training.
